ADP, CLIENT TECHNICAL ANALYST II, 12/04-10/08

Supported connectivity and configuration of DMS@Net, Client Access I – Series, and Bosanova emulsion programs to the IBM AS400 Server.
Utilized an AS/400 based system to enter, diagnose, research, retrieve, and escalate customer requests.
Interfaced with a variety of dealership personnel, other Automotive Retail Group teams, and Saturn personnel to resolve inquiries and establish protocols.
Logged, documented, and dispatched customer issues through Clarify problem management software.
